Treasurer's Report

Nominations Are In For June Elections Mail In Ballot In This Issue Of Newsletter

Election time for AARC Club officers and directors is almost upon us. Nominations were received at our April meeting and the elections will be held at our June meeting. This year, the AARC is reviving the process of voting by mail for those who won't be able to make the June meeting. However, only those who make the June meeting will be able to participate in the Big Summer Raffle. Our Activity Manager, Simon, NL7VR, has been hinting at another LARGE prize (are we looking at another TS-50 Simon?).

Each year the club votes to elect a President, Vice-President, Activities Manager, Secretary, Treasurer, six board members who'll serve for one year and

one board member who will serve for three years.

The nominations are in for this year's election. For President you can choose between Rob, AL7KK and Richard, AL7MO. For Vice President, the nominees are Mel, AL7PB and Jim, AL7FS. Marc, WL7JS and Larry, KL7IWC are the candidates for Activities Manager (Hint: KL7IWC is still somewhere in the Southeast). Marc, WL7JS is also vying with Susan, NL7NN for the position of Secretary. Larry, KL7IWC is opposing John, NL7NC for the Treasury.

It's a three way race for the three year

(Continued on page 8)

AARC Board Completes ByLaw Revisions Membership To Vote On Changes At June Meeting

The Board of Director's was able to complete their review of the club's bylaws at the April meeting and we are recommending a number of changes which will be voted upon at the June General Meeting. Most of the changes are minor changes to make pronouns in the bylaws gender neutral. But there are a number of significant changes which are also being recommended by the Board.

There will be copies of the bylaws distributed at the May meeting for the review of the members present. the copies will contain the language of the existing bylaws and will show the proposed changes. Through the wizardry of word processing, we are able to indicate the language that is being deleted and the language that is being added.

For those who won't be able to make the May meeting the significant changes will be discussed in this column. The sections involved in the changes will be indicated here by quotation marks " ". The new language will be indicated by

See You There!

AARC GENERAL MEETINGS are held on the first Friday evening of each month in Room 102 of the Carr-Gottstein Building on the Alaska Pacific University Campus. The campus is located at 4101 University Drive and Bragaw Streets. Parking is available only in the lot to the northeast of the building. The meetings begin at 7:00 PM and visitors are always welcome! The AARC legendary raffle is open to everyone.

AARC BOARD MEETINGS are held on the second Wednesday evening of each month in Room 104 of the Carr-Gottstein Building on the APU campus. The meetings begin at 7:00 PM and are open to all club members and visitors.

ANCHORAGE ARES NET The Anchorage area Amateur Radio Emergency Services net is held each Thursday evening at 8:00 PM on the KL7ION repeater on 147.3 (+.600). Net Control is Lil Marvin, NL7DL and alternate NCS station is KL7IO. The Westlink Amateur Radio report, Swap N Shop and the Parka Net follow the ARES net on the same frequency.

THE KL7AA REPEATERS sponsored by the club are on 146.94 (at minus .600), 224.94 (-1.600) and 444.7 (+5.000). The 146.94 repeater located near Flat Top Mt. and the remote receiver at Government Hill use either 100 or 141.3 hz tones for access. The West Anchorage remote receiver uses only 100 hz tones. The 125 cm and the 70 cm repeaters located near Flat Top Mt. do not require tone for access at this time. The AARC sponsored repeater at Mt. Alyeska, 146.76 (-.600), is equipped with the 141.3 hz tone, but does not require it for access at this time. The repeater trustee is William Reiter, KL7ITI. Doug Dickinson, KL7IKX, is chairman of the VHF/UHF committee.

The Anchorage Amateur Radio News Bulletin is the monthly newsletter of the Anchorage Amateur Radio Club. Letters to the Editor and articles for publication should be submitted to Harvey Rookus, NL7DK, 3310 Checkmate Drive, Anchorage 99508. Telephone number (907) 333-4693. Articles and Notices for the paper should be typewritten or on IBM compatible formatted computer disks (5.25 or 3.5 inch). Graphic illustrations for articles are also welcome. Deadline is the 20th of each month.

KL7AA-7 PACKET OPERATIONS Ports are 145.01 mhz, 147.96 mhz and 445.05 mhz at 1,200 Baud; 7110 khz (LSB) at 300 Baud (alias HF40) and 445.11 mhz at 9600 Baud. The Iceworm BBS is available on 147.96. Remember that 147.96 mhz is normally in use as the Iceworm link to other Alaskan communities and limit use of that port to the hours of 1600 to 2200 daily. A landline port is available at 300-9600 Baud, V32.bis compatible; registration is required. Contact Sysop Mel Sauners, AL7PB, at 349-4372 for info, or contact Sysops Doug KL7IKX, Paul WL7BF, Jim NL7C, Merle AL7LD or Bill AL7MM.

FREE LICENSE EXAMS are held on the first Wednesday evening of the month at 6:30PM in the Carr-Gottstein Bldg on the APU campus and on the third Wednesday evening of the month in Eagle River at 7PM in the basement of the VFW Hall. VEC exams are also held on the second Saturday of each month at 2 PM at the Hope Cottage offices, 540 W. International Airport Blvd. For more information contact VEC Director, Roger Hansen, KL7HFQ at 892-6365.

AARC MEMBERSHIP DUES are \$20.00 regular, \$25.00 family and \$10.00 student. Dues are due one year from date of last payment. There is a 30 day grace period. Life memberships are available. Contact Lance Dunbar, AL7BK, (H) 337-6297 or (W) 561-5457.

Please remember that the club receives \$2.00 for each ARRL membership renewal and \$5.00 for each new ARRL membership if they are processed through the AARC.

AARC is affiliated with the ARRL.

italics and we'll tell you what is being replaced.

In Article III, Section 3, which discusses eligibility for the Governing Body, the following change is recommended: "All officers shall *meet the legal requirements to serve as an officer of a corporation incorporated in the State of Alaska.*" This avoids setting requirements such as minimum age requirements that could later be in conflict with both the wishes of the club and the laws of the State of Alaska.

Changes In Programs

In Article IV, Section 2, which discusses the duties of the Vice President, the following addition is recommended: "*The Vice President shall coordinate program managers for each General Meeting of the club.*" The purpose of this addition is to shift part of the workload of the Activity Manager over to other members of the club. In the past, the Activity Manager has become such a burdensome position that virtually no one will volunteer for the position and the 'Alaskan Railroad' has to roll over a club member to get the job done.

We're recommending that the members present at the meetings will be asked every three months what they would like to have for programs in the coming months. The Vice President will coordinate volunteers from the membership and the Board to prepare for and arrange one of the suggested programs. This is a little like the method used by Rotary, Lions and other service groups in evening the load and diversifying the programs. The Activity Manager will still be responsible for coordinating other club activities such as Field Day and the Christmas party; however, in the future, we expect those who are interested in such activities to answer the call for volunteers.

Last year the club amended the bylaw covering a quorum at the Board Meetings. Since the change was made to lower a quorum to eight members of the Board, we've been fortunate that there were at least ten members present at each meeting. This year we are recommending an addition to Article V, Section 1 on attendance at Board Meetings. "If three (3) Board meetings are missed by any Board member or Officer in any twelve-month period in a term of office, the Board member's office shall be considered vacant. The office shall become vacant upon missing the third Board meeting unless justifiable excuse and due cause for missing each of the meetings is found by the majority of the Board, at the meeting in which the seat becomes vacant. *A justifiable excuse may be given by the Board Member or Officer to the President prior to the meeting which will be missed.*" The added language formalizes a process of identifying justifiable absences.

Moving Elections To November

Traditionally the club has its elections for officers and the new Board of Directors each year in June. Over time this has come to complicate several important club activities and duties, most notably Field Day and the Hamfest. Therefore the Board is recommending the following change in Article VIII, Section 1 on elections: "Elected term of office shall be from *December 1st to November 30th.*" The elections would move from June to the month of October.

This change allows each year's officers and directors the opportunity to plan for and conduct Field Day and the Hamfest in a timely manner. Currently, if we wait until the June elections are completed to begin planning for either event, we lose critical lead time on Field Day and we find that there are only a few weeks left to get the Hamfest notice to ARRL for inclusion in the September issue of QST. It's also our recommendation that the change in election dates come at the end of the term of office for those who will be elected this June. Those officers and directors elected this June would then serve until November 30, 1995.

There is also another benefit of moving the elections. During the summer months it is especially difficult to have our General Meetings on a Friday evening and still expect a large turnout. It's hard to choose between coming to the meeting and taking advantage of the long hours of daylight on a Summer's weekend.

(Continued on page 4)

(Continued from page 3)

A companion change in Article VIII, Section 4, clarifies the term of office for the Club Trustee. "No officer or Director may hold the same office for more than two consecutive elected full terms. *The Club Trustee may serve only one elected term of office not to exceed ten (10) years.*" The Trustee's ten year term of office runs concurrent with the license for the club station and ten years is more than enough to ask from a member. Remember, the Trustee is also bound by the same attendance rules as the other Board Members, that means making it to at least 90 Board Meetings over the life of their commitment to the club.

Adding Special Interest Groups To The AARC

A very interesting recommendation that the Board is making is in a new section in Article IX on meetings. "Section 2. *Special Interest Groups in the club may hold additional meetings as desired. Minutes of the Special Interest Group meetings should be taken and given to the Secretary for inclusion in club records and publication in the club newsletter.*" These special interest groups would operate under the AARC name and would be a part of the club's activities for our members.

This new section would formalize the opportunity for club members to initiate additional club meetings and activities for smaller groups of members. These special interest groups could be set up for practically any interest related to Amateur Radio and Emergency Communications. Suggestions have included DXing, Contesting, QRP operations, Satellite, Packet Users, Antenna parties and How-To-Build-It sessions. What can you think of?

In the past some members have been reluctant to suggest new activities or club meetings on different days of the month (or week) because they've felt that the majority of the club members weren't interested. Over time this can open up the club to increased participation by the over 350 members who can't or don't make it to each month's General Meeting.

All that we should ask of a special interest group is that it be open to all members of the club, give notice of its existence, give notice of when it meets, and keep a record of activities for publication to let other club members know what's happening.

In addition to the change in the election date for officers and directors, the Board is recommending a change in the budget year in Article XII, Section 3: "The President shall submit an annual budget to the general membership for approval. The club budget year shall begin on *July 1* and end on *June 30.*" This will put the budget year on the same year that our IRS tax returns use and will make record keeping easier for that task.

The Board is also recommending that we change the name of Article XII from FUNDS to "ACCOUNTING FOR CLUB ASSETS." We feel that this is a more descriptive title for this portion of the by laws. In Article XII, we are recommending a transfer of the following from Article IV: "The Custodian, appointed by the President from the REGULAR MEMBERSHIP, shall: (a) have custody or control over, and account for, all property associated with the corporation; (b) insure that all property of the corporation be marked in such a manner as to establish identity of ownership; and (c) present an annual inventory list to the Board of Directors and general membership." This change is recommended because the position of Club Custodian is not an officer or a member of the Board.

Bylaw Revisions Must Be Approved By Club Membership

So, if you approve or disapprove of the changes recommended by the Board, then you should come to the May meeting to pick up your copy of the complete proposal for the amendments. THEN you should join us in June when we vote on the proposed changes.

FOR SALE

What is this?

Thanks to Juneau Club

Proposal to link the Alyeska Repeater with Anchorage and provide telephone service for the Alyeska Repeater.

Now that the Alyeska Repeater (146.76) has been installed and is working, the task of linking it to Anchorage, and allowing a user on the Alyeska system to access Emergency Services, needs to be addressed. The following is the AARC Technical Committee's proposal of how this can be accomplished.

There are of course two ways to provide Emergency Services telephone access.

The first would be to procure (either buy or lease), or have the Alyeska group provide a dial circuit for our use. And then purchase a simple patch system for installation on the Alyeska Repeater system. Several problems are related to this approach. There are no lines available at this time, though new lines are being installed daily. Also, it will require the purchase of a telephone interface device and installation of same (more equipment at a remote location to maintain). And the control operators would not normally be able to monitor phone traffic, and some long distance abuse could leave the club liable for some extensive long distance charges.

The second way is to link the Alyeska repeater system to an AARC Anchorage repeater that already has telephone service. This will require the purchase of another radio, antenna, and power supply system. This second way not only allows

complete monitoring of Alyeska repeater activity, including telephone patch service, but also allows for local area users to communicate via the link into the Alyeska area. In addition, the second way will allow for extended linking. We have the capacity to link Alyeska to the UHF repeater as well as the 220 and 146.94 repeaters. This would allow much more coverage for local users as well as supply the needed Emergency Services access for the Alyeska area.

As proposed, normally the link would be full time between the AARC UHF repeater in Anchorage, and the Alyeska repeater. Touch Tone commands at control operator or possibly user level would allow for interconnect to 220 and 146.94 as required. This will allow any user within the service area of all three Anchorage AARC repeaters access to and from the Alyeska area.

Required new equipment and approximate costs are:

One (1) Alinco DR-600 mobile type radio with CTCSS encode and decode option. Price \$600.00.
One (1) Dimond or Comet 3db VHF/5db UHF vertical ground plane antenna \$90.00.

One (1) 13.2V AC/DC supply. In technical committee's stock.

One (1) 120 Amp hour deep cycle battery \$90.00.

One (1) duplexer to match UHF and VHF transmitters to single antenna. We have two options here; use a dual band vertical (with duplexer if required) or use single band antenna's. We have gain VHF verticals in stock, and UHF yagi's also are available, but this requires more mounting space.

One (1) enclosure. Again in stock with the technical committee.

Total approximate cost \$780.00

There of course is no charge for a phone line, and the telephone patch equipment on the UHF repeater provides for long distance lockout. We are NOT bypassing toll charges for the Alyeska area as this is considered a "local dial area" for Anchorage.

Respectfully submitted,
Doug Dickinson, KL7IKX,
Chairman, AARC Technical Committee

Editor's Note: The new repeater atop the Ski Patrol Hut on Mount Alyeska is now providing good coverage of the Girdwood, Sunrise and Hope areas along the Turnagain Arm. The coverage into Hope is considered more than sufficient to eliminate the need for a separate repeater to cover the community. At the April 13th Board Meeting, we voted unanimously to approve the project to link the Alyeska repeater with the Anchorage repeaters via a yet-to-be determined site in West Anchorage.

The West Anchorage link would receive the UHF repeater on 449.7 and retransmit it on the Alyeska input at 146.16. The link would receive the Alyeska repeater on 146.76 and retransmit to the UHF repeater on 444.7. CTCSS encoding would be used to prevent accidental tripping of the West Anchorage link by anyone inadvertently operating with reverse offset on the frequencies for either repeater.

Dear Members of the Board,

On March 25th, 3 members of the AARC VHF Committee made an expedition to the top of Site Summit to repair the KL7ION repeater. It was determined that other users near the site overloaded the main power circuit, causing it to trip. An overloaded, outmoded and unbalanced emergency generator automatically came on line and zapped KL7ION's amplifier, due to the generator's unregulated system. The VHF Committee elected to install a protective system involving the use of 2 deep-cycle batteries, a power supply and a shedding relay in an attempt to prevent a similar occurrence (Murphy permitting).

The following donations were made to the VHF committee to repair the repeater: PA amplifier, shedding relay, time delay relay, electrical equipment shelving and paneling, a 35-amp Astron power supply, custom-made battery cables, engineering and labor equipment donated to put together the necessary repair equipment. The following expenses were incurred in the repair of the repeater:

emergency deep-cycle batteries (2) \$80.00
repair of amplifier \$150.00
helicopter \$1,000.00 (approximately)

The VHF Committee was dropped, in 2 trips, by helicopter about 300 meters downhill from the repeater site. They had to climb through 3 foot+ drifts of snow, carrying their replacement and repair equipment, and survival gear, uphill the rest of the way up the mountain. They had to leave the test equipment at the landing site, because they could not carry all the necessary repair gear and 50 pounds of test gear up to the repeater site. When they arrived at the repeater site, they had to deal with winds up to 55 mph. They had to do the repair job without any light, since the power was off again. What repairs they were able to do, they had to do the work strictly under flashlight power holding the flashlights in their mouths to free their hands for work. They found the cooling holes in the PA packed with snow, which had to be dug out and the PA dried with a heater as much as possible. The PA, 115-amp deep-cycle battery, a drop out relay and a time delay relay were all installed. The committee then returned, in 55 mph winds, to the landing site hoping to find a chopper there, and looking for alternate drop off points should that become necessary. Fortunately, the Saloy Helicopter Company Pilot (and owner) were found to be outstanding in the ability to land and take off in extremely adverse conditions. A second trip will be necessary to install the second deep-cycle battery, install the AC supply on the mounting tray, run a few tests, and do a few other things.

PARKAs would like to take the

opportunity to thank the 3 members of the VHF Committee who made the trip to the site. They were Doug Dickinson, KL7IKX, and his merry men, Mel Saunders, AL7PB, and Paul Spatzek, WL7BF. We are grateful for the time and effort that they put in to try to bring the repeater back to life.

In closing, PARKAs would like to request the AARC to pick up the entire cost of the helicopter expenses. PARKAs will pay the \$230.00 for the cost of the 2 deep-cycle batteries and for the repair of the amplifier, which is a much greater expense than we had originally anticipated. We would be grateful for the club's assistance.

Sincerely,
Lil Marvin, Vice President,
Polar Amateur Radio Klub of Alaska

In a unanimous vote at our April 1, 1994 General Meeting, the membership present voted to approve the payment of the cost of flying the VHF/Technical Committee members up to Site Summit for the repairs to the KL7ION repeater. Although the KL7ION repeater is not sponsored by the Anchorage Amateur Radio Club, we have supported this very useful, wide-range repeater because it is important to the South Central Area for emergency service communications by area amateurs radio operators.

April Treasurer's Report

Gaming proceeds of \$5,750.00 were received from Boniface Bingo, Inc. in March. The proceeds have been deposited at Smith Barney Shearson. No activity occurred during March for the Life Member account.

Nancy Adams has not yet completed our tax forms due to the April 15th income tax deadline. No other activity occurred during March with respect to Club taxes.

Fred Tolliver and Kent Hartzberg completed an amended 1992 Annual Gaming Report and have submitted it to the State. The amended report satisfies all requirements of the Request for Information that we had previously received. Fred and Kent also completed the 1993 Annual Gaming report and submitted it to the State on the March 15th deadline. We are now current on all required reporting.

I attended a Board of Directors meeting for Boniface Bingo, Inc.

on March 15th. Kent Hartzberg reported that competition in the local gaming industry is still very stiff and that he was taking additional steps to improve profitability. The AARC is still owed \$4,000.00 in gaming proceeds. Kent is hoping that things improve in the coming months as several other operators in town are expected to close due to lease expirations and/or inability to pay percentage proceeds as required under the new gaming regulations.

A total of \$6,000.00 was removed from our gaming account in March for the following: Blood Bank of Alaska donation \$1,500.00; KL7AA-7 Packet computer purchase, etc., \$3,000.00; and Municipality of Anchorage .30/.90 (KL7ION) repeater repair, misc., \$1,500.00.

Respectfully submitted,
John Lawson, NL7NC, AARC
Treasurer

Spring Cleaning '94

Anchorage Amateur Radio Club 1994 Elections

Mail In Ballot Instructions

Please follow these instructions in preparing your ballot and returning it to the club. We will preserve the secrecy of your votes if you follow the instructions.

1. Remove this sheet from the newsletter but DO NOT REMOVE YOUR MAILING LABEL. We will remove the top half of this sheet from each of the ballots at the June meeting once the elections committee has confirmed that you are not present. If you are present, then this ballot will be returned to you and you can then vote along with the rest of us.
2. Choose from among the Nominees for each position. You can vote for the same person for more than one position. We count the votes and chose the winners beginning from the President and proceed through to the one-year directors. If your candidate doesn't win a higher office, then your vote may help elect them to a different office.
3. Fold the bottom quarter of this sheet UP OVER YOUR SELECTIONS to the line indicated below. THEN STAPLE YOUR VOTE SHUT.
4. Fold this sheet again as needed to fit into an envelope and mail the ballot to the club at the following address:

ANCHORAGE AMATEUR RADIO CLUB, INC.
CLUB SECRETARY
POST OFFICE BOX 101987
ANCHORAGE, ALASKA 99510-1987

Please don't just give your ballots to another member of the club for delivery or to an officer or director. They may not make it to the meeting or might forget to bring it for you.

**REMEMBER TO MAIL YOUR BALLOT EARLY SO THAT IT WILL
ARRIVE BEFORE THE JUNE MEETING!**

President:

- ☐ Rob Wilson, AL7KK
- ☐ Richard Mote, AL7MO
